POWERSCHOOL PRO

On Monday, October 25th at 4pm parents of students in grade 1 - 6 will receive a letter informing them of a log in and account creation procedure for PowerSchool Pro. PowerSchool keeps parents informed and engaged with anytime, anywhere access to 360-degree views of their student's performance. This program is an excellent tool for parents to remain informed about their child's progress in school. Teachers will be updating assessments based on curriculum outcomes throughout the year, and parents will have access to this on a continuous basis. No longer do we have to wait until the end of each term to report to parents how their child is doing.

Although junior and senior high schools have been using this program for many years, this is a **BRAND NEW** platform for our elementary teachers. With that being said, I am asking for your patience as we navigate through this new technology. When you log in to your new account, you will see that teachers have added some assessments to the specific subject areas. Please take some time to click through the different aspects of this new tool, and feel free to contact your child's teacher if you have any questions.
